This we believe

North Port Democrats believe in a smart, sensible role for local, state & federal government. That government action should be employed to bring better jobs, fair & equal wages, & affordable housing in the U. S., Florida, Sarasota County & North Port. We believe that this is essential for an economy which includes all people & improves their lives.

North Port Democrats believe in responsible growth in Sarasota County & North Port because a growing population & a growing economy benefit us all.

North Port Democrats believe new development must protect Sarasota County's & North Port's quality of life by preserving sensitive, environmental land & wildlife corridors. Our future & that of future generations depend upon the environment's health & sustainability.

North Port Democrats believe that affordable, high quality healthcare is a human right & a vital part of the American promise, which should be accessible & available to all.

North Port Democrats believe in educational opportunity for all children from early childhood through state or community college or a technical school. We also believe affordable & accessible technical education & worker retraining must be available to ensure that all, especially the underemployed & the unemployed have an equal & fair chance to succeed in the modern economy.

And we believe

North Port Democrats believe our Country has a sacred & moral obligation to our veteran's & wounded warriors. We support quality & accessible healthcare, educational benefits, job training, the end of veteran homelessness & protecting & preserving the Post 9/11 G.I. BILL for future generations.

North Port Democrats believe that LGBT Rights are Human Rights. That our Country should advance the ability of all persons to live with dignity, security & respect, regardless of who they are or who they love.
